

Computer Information Technologies

Vera James

Submitted by Esther Frankel

The CIS Department is pleased to present our outstanding student, Vera James. Vera, a “returning” student, has completed her online Help Desk and Desktop Support Skills Competency Award – Level I with an exceptional academic record.

Vera’s enthusiasm for the field and exceptional work ethic has been inspiring to both faculty and fellow students who have interacted with her, and is one of the many reasons that department faculty enthusiastically recommended her for this honor.

Vera has plans to continue her education at SBCC. She is on her way to completing our Level II Skills Competency Award, and has taken other advanced classes to promote her employability in the Information Technology field.

Vera’s Words of Gratitude

I love being one of the vaqueros! SBCC was the right choice for me. The curriculum is outstanding and prepares students for transfer to 4-year colleges and universities, career advancement and/or personal development. The instructors are excellent. They do everything they can to ensure we are successful. I am just one of the students that have benefitted from their expertise, many in multiple disciplines, on-the-job and personal experiences, and wisdom.

Thank you for selecting me as the 2021 Outstanding Student of the Year!
