

FIBM and Film

Selected Student: Mirjam Maier

Submitted by: Julie Ann Brown

Mirjam is an outstanding student. She is a dual major of both film studies and marketing. She has extensively worked with the international student office promoting study abroad while using skills she has learned as both a film and marketing major. She is creative and innovative in bringing forth examples she creates to share how she understands material in both face2face and online classes. She is a leader and motivator to her fellow students whether engaging with them in formal or non-formal classroom oriented projects. She volunteers on projects to share what she has learned with others who work or study at SBCC. She is a model of what a learner should be.

Mirjam's Words of Gratitude:

I am so incredibly thankful to receive this award. SBCC has been an amazing platform to grow as a person and learn. My goal in life was always to do something that I love and SBCC made me discover more about myself and what I want to pursue in the future. As a result, I try to seize every opportunity with open arms and have met many amazing people along the way. I am so grateful for everyone who supports my journey here at SBCC.

Studying both Film Production and Marketing is an excellent combination. I love being artistic and it is so amazing to study something that I am truly so passionate about. Film is a wonderful platform to create magic and share what you care about with others.

I can only imagine that I will continue to be creative and hopefully get to inspire others with my work as well. I am excited to continue my studies, hopefully in person, this Fall.
